The Work Incentive Benefit allows the partially disabled employee to receive their monthly benefit if their benefit plus their earnings do not exceed 100% of indexed pre-disability income. If their benefit plus their earnings exceeds 100% of indexed pre-disability income, their benefit is reduced by the excess. After 12 months, the employee's Work Incentive Benefit is calculated by multiplying their monthly benefit by their loss of salary ratio. "Partially Disabled" means that an employee is working in a partial or part-time capacity after becoming disabled and meets the earnings test shown above.
<b>Rehabilitation Incentive Income (RII)</b>	<u>Proportionate</u> –12 months. RII is offered to employees who agree to take part in a Rehabilitation Plan, structured to return them to gainful employment in another occupation because they can not return to their regular occupation. During the first 12 months, RII is equal to the monthly benefit. If disability earnings during this period exceed 100% of indexed pre-disability earnings, the monthly benefit is reduced by the excess. After 12 months, RII is equal to the monthly benefit reduced by multiplying the monthly benefit by the adjusted loss of salary ratio.
<b>Survivor Benefit</b>	If the employee passes away after being disabled and receiving long-term disability benefits for six consecutive months, we will pay the employee's beneficiary a lump sum benefit equal to three months of disability benefits.
